REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

To the Board of Directors Independent Petroleum Group Company - K.S.C.P State of Kuwait

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Independent Petroleum Group Company – K.S.C.P. ("the Parent Company") and its subsidiaries (collectively "the Group") as at 30 September 2020 and the related interim condensed consolidated statements of income and other comprehensive income for the three months and nine months period then ended and the related interim condensed consolidated statement of changes in equity and cash flows for the nine months then ended. Management of the Parent Company is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 – Interim Financial Reporting.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the condensed consolidated interim financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 for 2016, its Executive Regulation, as amended or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, during the nine months period ended 30 September 2020 that might have had a material effect on the Group's financial position or results of its operations.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

We further report that, during the course of our review, we have not become aware of any material violations of the provisions of Law 7 of 2010, concerning the Capital Markets Authority and Organization of Security Activity, as amended and its executive regulations during the period ended September 30, 2020 that might have had a material effect on the Parent Company's financial position or result of its operations.

The interim condensed consolidated financial information for the nine month period ended 30 September 2020 was authorized for issue by the Chairman on behalf of the Board of Directors on 3 November 2020.

Notes to the interim condensed consolidated financial information (unaudited)

for the nine month period ended 30 September 2020

2. Basis of preparation

a) Statement of compliance

The interim condensed consolidated financial information has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The interim condensed consolidated financial information does not include all the information and notes required for complete annual consolidated financial statements prepared in accordance with International Financial Reporting Standards. In the opinion of the management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included in the accompanying interim condensed consolidated financial information. Operating results for the nine month period ended 30 September 2020 are not necessarily indicative of the results that may be expected for the year ending 31 December 2020. For further information, refer to the annual consolidated financial statements and notes thereto for the year ended 31 December 2019.

The accounting policies used in the preparation of the interim condensed consolidated financial information for the period are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2019, except for the adoption of new standards effective as of 1 January 2020.

Changes in accounting policies

The following revised IFRSs, which became effective for annual periods beginning on or after 1 January 2020, have been adopted in the interim condensed consolidated financial information. Their adoption has not had any material impact on the disclosures or on the amounts reported in the interim condensed consolidated financial information.

Amendment to IFRS 3: Definition of a Business

The amendment in Definition of a Business (Amendments to IFRS 3) are changes to Appendix A Defined terms, the application guidance, and the illustrative examples of IFRS 3 only. They:

- clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output;
- narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs;
- add guidance and illustrative examples to help entities assess whether a substantive process has been acquired;
- remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs; and
- add an optional concentration test that permits a simplified assessment of whether an
 acquired set of activities and assets is not a business.

Notes to the interim condensed consolidated financial information (unaudited)

for the nine month period ended 30 September 2020

This amendment is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2020.

This amendment is not expected to have a material impact on the Group's interim condensed consolidated financial information.

Amendment to IAS 1 and IAS 8: Definition of Material

The amendment provides a new definition of material that states "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity."

The amendment clarifies that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users.

These amendments had no impact on the interim condensed consolidated financial information of the Group, nor is there expected to be any future impact to the Group.

Conceptual Framework for Financial Reporting issued on 29 March 2018

The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The purpose of the Conceptual Framework is to assist the IASB in developing standards, to help preparers develop consistent accounting policies where there is no applicable standard in place and to assist all parties to understand and interpret the standards.

The revised Conceptual Framework includes some new concepts, provides updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts.

These amendments had no impact on the interim condensed consolidated financial information of the Group.

Amendment to IFRS 16 "leases" - COVID-19-Related Rent Concessions

COVID-19-Related Rent Concessions, issued in May 2020, added paragraphs 46A, 46B, 60A, C20A and C20B. A lessee shall apply that amendment for annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted, including in financial statements not authorized for issue at 28 May 2020.

A lessee shall apply COVID-19-Related Rent Concessions retrospectively, recognizing the cumulative effect of initially applying that amendment as an adjustment to the opening retained earnings (or other component of equity, as appropriate) at the beginning of the annual reporting period in which the lessee first applies the amendment.

This amendment is not expected to have a material impact on the Group's interim condensed consolidated financial information.

Notes to the interim condensed consolidated financial information (unaudited)

for the nine month period ended 30 September 2020

Other than the above, several other amendments and interpretations apply for the first time in 2020, but do not have an impact on the interim condensed consolidated financial information of the Group.

New and revised IFRSs in issue but not yet effective and not early adopted:

At the date of authorization of this interim condensed consolidated financial information, there are several amendments on IFRS in issue but not yet effective and not early adopted by the Group. The Group anticipates that these new standards, interpretations and amendments will be adopted in the Group's interim condensed consolidated financial information as and when they are applicable and adoption of these new standards, interpretations and amendments may have no material impact on the interim condensed consolidated financial information

b) Judgments and estimates

The preparation of interim condensed consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these interim condensed consolidated financial information, the significant judgments made by management in applying the Group's accounting policies and key source of estimation uncertainty were the same as those that applied to the annual consolidated financial statements for the year ended 31 December 2019, with the exception of the impact of the COVID-19 outbreak on the Group (Note 19).

17. Fair value estimation

IFRS 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The Shareholders' Annual General Assembly held on 20 February 2019 approved the annual audited consolidated financial statements for the year ended 31 December 2018 and payment of a cash dividend of 30 fils per share amounting to KD 5.42 million for the year ended 31 December 2018.

19. Impact of COVID - 19

COVID-19 has brought about uncertainties in the global economic environment. In light of the rapidly escalating situation, the Group has considered whether any adjustments and changes in judgments, estimates and risk management are required to be considered and reported in the interim condensed consolidated financial information. The Group's business operations are affected as a result of significant weaker oil prices and a general decline in demand owing to slowdown in GDP growth and industrial activity. These adverse conditions directly translated into declining commodity prices and caused product prices to fall.

Given below are the key assumptions, judgements and key sources of estimation considered by the management for the period ended 30 September 2020.

Impairment of property and equipment

The Group's management tested its property and equipment for impairment as at the reporting date due to indicators of impairments existing at that date.

Impairment testing is an area involving management judgment, requiring assessment as to whether the carrying value of assets can be supported by the net present value of future cash flows derived from such assets using cash flow projections discounted at an appropriate rate. For the purpose of the impairment testing, assets are grouped together into CGU. In calculating value in use, certain assumptions are required to be made in respect of highly uncertain matters including the estimated future cash flows that are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset/CGU.

The Group prepares detailed long term plans for its property and equipment which are reflected in the financial models. These plans have been reviewed and approved by the management of the Group and has been subsequently used as the basis for its impairment reviews. In estimating the value in use, the Group uses financial models which are regularly reviewed and updated over the operating period of the assets. As part of the review process, management challenged and reassessed the validity of the underlying assumptions of these financial models and have concluded that it has adequate provision on impacted assets for the period ended 30 September 2020 (Note 5).

Expected Credit Losses ("ECL") and impairment of financial assets

The uncertainties caused by COVID-19 have required the Group to reassess the inputs and assumptions used for the determination of expected credit losses ("ECLs") as at 30 September 2020. The Group has updated the relevant forward-looking information of its operations with respect to; the weightings of the relevant macroeconomic scenarios of the respective market in which it operates; significant increase in credit risk; and assessing the indicators of impairment for the exposures in potentially affected sectors. As a result, the Group determined that it has adequate provision on impacted assets for the period ended 30 September 2020 (Note 5).

Notes to the interim condensed consolidated financial information (unaudited) for the nine month period ended 30 September 2020

Impairment of investments in joint ventures, associates and other assets

The Group's management reviews periodically its investment in joint venture and associates to assess whether indicators exist that the investment is impaired.

The Group has performed a qualitative assessment for its investments in joint ventures and associates and compared the actual results for the period ended 30 September 2020 against the budget and industry benchmarks and conclude that the impairment assessment remains unchanged.

The Group has also considered any impairment indicators and any significant uncertainties impacting its inventories and right-of-use assets especially arising from any change in lease terms and concluded that there is no material impact of COVID-19.

Going concern

The Group has performed an assessment of whether it is a going concern in the light of current economic conditions and all available information about future risks and uncertainties. The projections have been prepared covering the Group's future performance, capital and liquidity. The impact of COVID-19 may continue to evolve, but at the present time the projections indicate that the Group has sufficient resources to continue in operational existence and its going concern position remains largely unaffected and unchanged from 31 December 2019. As a result, these interim condensed consolidated financial information have been appropriately prepared on a going concern basis.

The Group will continue to closely monitor the impact of COVID-19 as the situation progresses to manage the potential business disruption COVID-19 outbreak may have on it's operations and financial performance in 2020.
